STONY PLAIN SPORTS DAY,
MONDAY, JULY FIRST.

Big Programme for Stony Plain's Sports Day, July the First.

The Dominion Day Celebra-
tion Club Holds a Meeting
Friday Night, Organizes,
and Appoints Various
Committees.

GREAT ENTHUSIASM AROUSED.

On the call of Pres. George
Oppertshauser, the members
of the S. P. Dominion Day
Celebration Club, with their
supporters, met in the town
hall on Friday Evg. and went
into conference on the matter
of a bigger and better celeb-
ration of Canada's National
holiday on the first of next
month. About threescore were
present.

A motion was made, and car-
ried, that Mr Gao. Oppertshauser
be President Mr E. Dannhauser
be secretary.

Another motion, made by Elmer
Anderson, seconded by Hy Trapp,
that we have sports day on July
1st, carried unanimously.

A finance and advertising com-
mittee, consisting of Messrs F W
Yeats, Geo. J. Bryan, H. Lewis,
was then appointed. Some discus-
sion took place on this proposal as
to the advisability of combining
the duties of financing and advert-
ising on the same committee; but
finally the majority carried the mo-
tion.

The appointing of members on
the sports committee did not take
long, as these five were rounded up
in short order: Dr Oatway, A E
Michael, J W McCulla, Hy Trapp,
Philip Enders.

A motion was made, and carried,
that a dance be held the evening
of Sports Day, and these gentle-
men were appointed to the dance
committee: Sam Camisarow, Wm
Kelly, J P Gannon.

The next order of business was
selecting a refreshment committee.
A number of names were offered,
but these were finally selected to
serve: Jas Christie, Hill Larson,
Clarence Anderson, E Anderson,
Bill Miller.

A discussion took place on the
price of admission to the grounds
on Sports Day. Some were of the
opinion we should go back to the
old price of 25c for adults; while
others suggested the price be re-
duced to 10c; a compromise was
made when a motion carried that
last year's price of 15c for adults
and children free, be adhered to.

It was suggested we have a band
on the grounds at the coming cele-
bration. This matter, and the ques-
tion of the orchestra for the dance
were threshed out. Finally the
whole matter was left with the
dance committee to investigate and
report at the meeting of the com-
bined committees. This combined
meeting to be held Tuesday.

The ball games which are being
played at the present time in Ed-
monton by teams composed of girl
players are causing quite a commo-
tion. It has been suggested that an
effort be made to bring 2 of these
teams here on Sports Day.

HOW TO MAKE ICED TEA

Infuse six heaping teaspoons of Salada Black Tea in a pint of fresh boiling water. After six minutes strain liquid into two-quart container. While hot, add 1 1/2 cups of granulated sugar and the juice of 2 lemons. Stir well until sugar is dissolved; fill container with cold water. Do not allow tea to cool before adding the cold water; otherwise liquid will become cloudy. Serve with chopped ice.

"SALADA" ICED TEA

Funerals Without Flowers

Within recent months the writer has attended a number of funerals, joining with other friends and loved ones in paying respect to a deceased friend. Some of these funeral services have been held quietly and simply in the home, with only a few of the nearest relatives and closest friends of the departed one present; others have been held in churches in order that the larger circle of the deceased's friends and associates in his or her life's activities might be present, or where the religious tenets of the departed might be properly observed. In one case just a few persons were present, people who had voluntarily made small contributions to prevent the remains of the one who had passed on from being consigned to the potter's field.

In the vast majority of cases there were flowers in profusion, wreaths, emblems, sprays, dozens and scores of them, representing an expenditure of many dollars. And the thought constantly protruded itself whether such lavish display of floral tokens was right, in good taste, even in keeping with our Christian beliefs. It could not be questioned that in many, probably most, instances these flowers were sent out of love or a sincere respect for the deceased. Equally true, no doubt, in numerous instances flowers were sent because it has become the custom to send them.

As a matter of fact, as in the case of weddings, the tendency seems to be in the direction of making funerals more and more elaborate, more expensive, more and more something of a spectacle. The quiet and simplicity in funerals of former days has largely passed, until now it has become a source of heavy expense and consequent worry to people who are not blessed with an over-abundance of this world's goods. Yet because of prevailing custom, nobody wishes to appear mean in the eyes of others when called upon to discharge the last duty to a loved one.

Many people think of these things, believe present customs are wrong, but seldom openly express themselves. In a recent spirited article entitled "Decent Christian Burial", Marian J. Castle attacked the extravagance attending funerals. She showed how sums spent on flowers, tombstones, pomp and ceremony, often impoverish the living families of the deceased. She wisely inferred that the dead might be happier if the funds showered upon their inanimate bodies were instead used to brighten the lot of the living.

Discussing this same subject, Alma Hedlin, sister of Sven Hedlin, the famous Swedish explorer, says it is in the spirit of the times in her country to seek the simplest and at the same time the most dignified memorial for those we have loved. She outlines various steps taken in this direction, including the provision of funeral insurance through the agency of a society, which takes charge of all funeral arrangements, which are the same for every individual. Payment can be made to the society at any time during the lifetime of the insured, the premium being smaller for the young than for the old. The highest premium is paid by those who are over 70, and is about \$75 in all. This provides for a dignified funeral of a kind that might otherwise tax the resources of the bereaved family, especially when the deceased happens to be the breadwinner.

In Sweden, too, they have had since 1921 an organization called the Flower Fund, formed to honor the dead "in a more worthy and more lasting manner" than with ornate floral tributes for the bier. Instead of sending an expensive wreath, the friends of the deceased remit the money to the Flower Fund, which sends to the bereaved family a simple memorial message in the name of the giver. The amount contributed remains a confidence between the donor and the Fund.

It was decided that the money received in this way should be applied to obtaining houses with small apartments for old people in straitened circumstances. When three and a half years had passed, the Flower Fund erected a large building on the site donated by the city of Stockholm. Soon a second house rose by the side of the first, and before long six additional houses were built. By this means the Fund provides for more than a thousand old people. These pay a lower rent than they would pay elsewhere and receive care if they are ill. Otherwise they are quite free, and there is nothing institutional about the place. It is like a private home.

There is a restaurant in each building where residents can buy lunch or dinner for a quarter of a dollar. They may have meals sent to their rooms or prepare them in the small kitchen that accompanies each apartment. Food can be purchased in the building, and there is also a laundry and a bakery. The old people seem to be happy under these arrangements, for there are always more applications than can be filled.

Swedish death notices often contain a line asking that the Flower Fund be remembered. Sometimes another charity is named, for the example is contagious. The important thing is not that the money is donated to a single cause but that the memorial be given a form that will honor the dead by benefiting the living.

Does this Swedish idea not offer a suggestion to the people of other countries? Can we not make our tributes to our deceased loved ones something more lasting than quickly withered blossoms?

THE FLAVOR LASTS

Perished In The Desert

Bodies Of Man And Woman Found On Scorching Sands Of Sahara.

A searching party found the bodies of an Englishwoman and an Englishman on the scorching Sahara sands recently and rescued two Frenchmen near death from thirst.

The woman, Mrs. Knight, widow of an English aviator who committed suicide recently at Agades, French West Africa, had slashed her wrist apparently in an attempt to end her torture from thirst and heat.

A party of four—Mrs. Knight, Peyton, an English resident of Switzerland, and two Frenchmen, Kneebret and Chaveux—left Agades by truck May 22, for Tamarasset, Tavarak. After the quartette were missing four days a searching party left Agades for them. It found the Frenchmen in a serious condition beside the truck near a dried-up river bed.

WHY HIS HEADACHES CEASED

Wife Put Kruschen In His Coffee

He could not understand why the headaches he had been subject to suddenly ceased. His wife told him, and he at once sat down and wrote the following letter:

"I am 62 years of age, and ever since I was a boy of ten years, I was subject to bad headaches. But two years ago the headaches stopped—for what reason I did not know. I was surprised when one day my wife told me I had been using Kruschen Salts in my coffee for over two years. I am still using them, as I know of nothing finer for the system."

Headaches can nearly always be traced to a disordered stomach, and to the unsuppressed retention in the system of stagnating waste material which poisons the blood. Remove these poisons—prevent them forming again—and you'll never have to worry any more. And that is just how Kruschen Salts brings swift and lasting relief from headaches. Kruschen Salts aid Nature to cleanse your body completely of all clogging waste matter.

Special Adviser

Lord Weir To Assist In Expanding Royal Air Force

Lord Weir, great war aeronautics expert and an international authority on aviation, was named by the British government as its special adviser in the work of expanding the Royal Air Force.

Stanley Baldwin, lord president of the council, announced the appointment to the House of Commons in outlining plans for the tripling of the British air force during the next two years.

Lord Weir will be known as the government's official counselor of aviation.

Political Science Association

R. H. Coats, Dominion Statistician, Is Elected President

R. H. Coats, Dominion statistician, Ottawa, was elected president of the Canadian Political Science Association, meeting at Kingston. He succeeds D. A. MacGibbon, board of grain commissioners, Winnipeg. Other officers are: Vice-president, H. Laureys, school of higher commercial studies, Montreal; J. C. Hemmings, McGill University; W. C. Keirstead, University of New Brunswick; W. I. Mackintosh, Queen's University. Speakers included R. McQueen, University of Saskatchewan, who spoke on "Economic Aspects of Federalism."

Railway Pigeon Section

The Nagoya Railway Bureau of Japan is to start a "pigeon section" at an estimated cost of nearly \$1,000. Ninety-five birds will be purchased at first, and after several years' breeding they will be distributed to all the Railway Bureaus in the country. The plan is to provide an auxiliary system of communication which will be called into service when all other means have been destroyed.

Anxious there should be no dispute over her estate of \$100,000, the late Mrs. Frederick Cook of London, England, disposed of it in a will of \$5,000 words. 2102

Remedy Is Elusive

Medical World Endeavors To Discover Virus For Treating Common Colds

There is a virus that has something to do with the common cold and that's what so far has eluded the medical world. When it is discovered what that virus is, then the cold may be squelched.

"The germs of the common cold are well known," Dr. E. C. Sewall, of San Francisco, told the convention of the American Laryngological Association in Toronto, "although I believe there is a virus which is not yet known. This virus, in my opinion, is the product of all these germs that go to cause the common cold."

Persons who suffer from frequent colds are probably suffering from the same cold all the time, he said. He said a cold creates an immunity of six months or so.

"This," he said, "is probably the reason for the endemic source of colds. These people carry the source of infection in chronic sinus trouble and spread infection to other people."

Long Service Medal

Old Member of Mounted Police Receives Official Recognition

An official recognition of his long service with the Northwest Mounted Police in the west's early days came to special Constable ("Gentleman Joe") McKay at Prince Albert when he was presented with the long service medal.

Forwarded from headquarters of the Royal Canadian Mounted Police, Ottawa, the medal was presented to Mr. McKay by Inspector F. W. Schutz, officer commanding this subdivision. Mr. McKay retired many years ago.

"Gentleman Joe" is said to have fired the first shot in the Riel rebellion, 50 years ago at the Duck Lake fight.

Ruling Is Clarified

Naturalized Germans In Canada Exempt From Military Service

German residents in the Dominion are exempt from compulsory military service in their homeland, according to an official declaration from Berlin which gives an interpretation of Chancellor Hitler's recent speech in the Reichstag, in which he dealt with military service. It states that Germans who are naturalized or have made their permanent homes in foreign countries will not be compelled to return to Germany to serve in the army.

Officers To Retire

Three Assistant Commissioners Of R.C.M.P. To Retire On January 1st Next

Royal Canadian Mounted Police announced impending retirement of three assistant commissioners, A. J. Cawdron of Ottawa, C. Junget of Halifax and J. W. Phillips of Vancouver. They will be granted leave from July 1 and retired next Jan. 1.

Assistant Commissioner Junget was engaged in the North West Mounted Police in 1899 and passed through the non-commissioned ranks until he was appointed inspector in 1907. He became superintendent in 1922 and assistant commissioner in 1932. He is now officer commanding "H" division at Halifax.

Assistant Commissioner Phillips, officer commanding "F" division at Vancouver, joined the North West Mounted Police in 1898 and passed through the non-commissioned ranks. He was appointed inspector in 1918, superintendent in 1931 and assistant commissioner in 1934.

Would Abolish Military Aviation

Londoners Vote For Limitation Of

Universal abolition of military aviation and limitation of armaments were favored by an overwhelming majority in a straw-vote conducted by the League of Nations union in Greater London, the union announced.

On these questions and on the question of supporting the league and forbidding the manufacture of arms for profit, the vote favored the proposals by 1,400,000 to 100,000.

Londoners voted 1,375,061 to 88,521 for use of economic sanctions against an aggressor, whatever the nation might be, and 872,275 to 386,664 for use of military sanctions if they were found necessary.

Young Lambs Make Trip

Long Jaunt Did Not Appear To Harm Them

Young lambs are good "trailers", Recently the University of Saskatchewan, Saskatoon, moved its ewe flock to summer pasture at Beaver Creek and the ewes, with lambs at foot, made 10 miles the first day and completed the journey easily the second. Some of these lambs were no more than four days old.

"The long jaunt did not appear to hurt the lambs a bit," said Dean A. M. Shaw, "and after their 10 mile trip they were fresh and perky. Of course, the weather was cool, but the observation is of particular interest to ranchers and B.C. sheepmen when moving their stock from winter to summer range."

WORLD HAPPENINGS BRIEFLY TOLD

The 400th anniversary of the first printed English Bible will be celebrated next October 4. It has been announced.

The U.S. bureau of agricultural wheat area for harvest this year in 26 countries at 190,854,000 acres, compared with 185,276,000 acres in 1934 and 191,132,000 acres in 1933.

Britain has accepted the Sultan of Johore's \$500,000 gift, offered as a silver jubilee contribution to strengthen the Singapore naval base. Prime Minister Ramsay MacDonald told the Commons.

The United States treasury summed up its financial situation for the first 11 months of the year ending in June and discovered it had gone "in the red" \$3,133,471,295 during that time.

Soviet Russia's policy in the Far East will be one "unbending as steel" in all matters regarding defence of the country's interests, Kari Radex said in an article in the official newspaper Izvestia.

The venom of the black widow spider is good for relieving the pain of angina pectoris. Its use for this was described to the American Institute of Homeopathy by Dr. Linn J. Boyd, of the Homoeopathic College.

The Countess of Beasborough handed over to the board of trustees of the King George Silver Jubilee \$237,799 and records of promises that will bring total contributions of the fund to \$420,529.

The government has no immediate plans for amending its annuities branch, Minister of Labor W. A. Gordon announced in the House of Commons. The present maximum is \$1,200 and the interest rate 4 1/2 per cent.

Alexander Korda, head of London Film Productions, has acquired the sole official world rights for producing a film version of the late Col. T. E. Lawrence's book, "Revolt in the Desert," it was announced in London.

Recovery Obstacles

United States Writer Calls For Reciprocal Trade Efforts

Commercial policies of the United States were described by Peter Molynaux, editor of the Texas Weekly and a trustee of the Carnegie, Mr. de Vaux's administrative expenses as "the greatest obstacle to world recovery." Writings in "International Conciliation," a publication of the endowment, he said:

"It meant the policy embodied in the terms of the Hawley-Smoot tariff act, the policy exemplified by the American attitude on war debts, the policy which prompted the almost unanimous enactment by congress of the Johnson Foreign Security Boycott act, the policy which every foreign country encounters at our shores and along our borders when it attempts to ship its goods to us in exchange for our own."

Molynaux called the reciprocal trade efforts of Secretary of State Cordell Hull a step in the "right direction." Currency stabilization was held "absolutely essential to world recovery" and he added that so long as the United States pursues its present policies "any lasting of international exchange will be impossible."

Girl Trains Football Team

Teacher Learned Game By Watching Her Brothers Play

So effective has Miss B. Casey, schoolmistress of Bradford School at Bradford, England, trained her football team of boys that they have won second place in the league for the second successive year. Miss Casey learned the game by watching her brothers play, and is herself a good hockey player. She uses blackboard sketches in illustrating new plays to her team, who have scored 55 goals, while competing teams produced only eight.

London's Empire Stadium at Wembley Park can seat 100,000 spectators, which is more than Rome's famous Colosseum held.

Vimy Pilgrimage Becomes Great Peace Movement

Registrations Of Ex-Servicemen Pouring In To Canadian Legion

The Vimy and Battleground Pilgrimage of the Canadian Legion of the British Empire Service League of which the famous battle of Vimy Canadian Corps, Canon Scott of Quebec, is pilgrim No. 1, has already received 545 applications from ex-servicemen, despite the fact that the ships arranged jointly by the Canadian White Star and Canadian Pacific lines do not sail from Montreal until July 15th and 16th, next year, 1936. In addition twelve hundred applications have been received by the government from ex-servicemen in the Civil Service for leave for the duration of the Pilgrimage.

This event is going to be of world significance. It is a Peace Movement on a colossal scale. It is anticipated that over 25,000 Canadians—ex-soldiers, their wives, children, fathers, mothers, sisters and brothers—will visit the cemeteries, the battlefields, and attend the unveiling of the Canadian Memorial at Vimy Ridge.

The all-inclusive cost of the entire trip—as outlined below—is \$160.00. From Montreal, July 15th or 16th, 1936; arrive France, July 24th; visiting graves, battlefields, towns in France and Belgium, (ships held in French ports) July 25th to 26th; unveiling Vimy Ridge Canadian Government War Memorial, July 26th; arrival England—July 27th; "Cultural docks—(ships held four days), July 27th; London (four days), July 27th to 31st; arrival in Canada (Montreal), August 8th.

After prolonged negotiations, the Atlantic Conference granted an ocean rate of \$120.00—lowest rate possible to obtain. State-rooms (3rd class) and the regular menu are provided. Free of charge the ship will be granted. Cabin Class will be available to those wishing to pay higher rates. Please remember that Ocean Travel accommodation to-day is vastly superior to that of 1914-1918.

The remaining \$40.00 of the \$160.00 is to provide for rail and road transport in France, billeting accommodation and meals in France and England, and accident insurance will also be provided in respect to those passengers acceptable to the Insurance Companies for this purpose. In addition, an official badge, belt, haversack and guide book will be provided. This indicates clearly how the amount quoted is made up.

Railway ticket agents, Ocean Line agents and Land Tour Companies are supplied with full information and application forms to take care of the many who will be participating in the Pilgrimage.

The Legion will not profit by this venture. The organization expenses will be taken care of through ordinary commissions. Any balance that may remain in the special Pilgrimage bank account, after organization expenses are met, will be placed in a special fund and allocated to such veteran purposes as the National Pilgrimage Committee may designate. Commissions have no bearing on the price of the ticket. The ocean rate is set by the Atlantic Conference of Steamship Lines and commissions are also set by the same body so that whether commissions are accepted or not the price of the ticket remains the same.

The potentialities of this Pilgrimage stagger the imagination. Never before in the history of the world has a nation so far removed from the scene of hostilities left so many of its dead buried in foreign soil in a battle for freedom. In a War to end War, Canada sent 500,000 troops to France. Sixty thousand are buried there to-day in cemeteries from Ypres to Albert—from Elaples to Mons. On Sunday, July 26th, thousands of Canadians and a brilliant entourage of the representatives of all nations, will gather on Canadian soil at Vimy Ridge to unveil Canada's War Memorial—completed after seventeen years of unremitting labour.

This memorial, designed by Walter S. Allward, a Canadian, is erected by the Canadian Government on Vimy Ridge—dedicated by the French Government to the Dominion of Canada—as "That bit of foreign soil that will forever remain Canada."

Major General, The Honourable S. C. Mowburn, C.M.G., chairman of the Canadian Battlegrounds Memorial Commission, has the assurance that the Government will co-operate and participate in the unveiling ceremonies, at the time of this Pilgrimage.

Novel Transportation

A method of transporting wounded persons on stretchers suspended under the wings and fuselage of an aeroplane was successfully tried out at Moscow. Three red cross doctors who volunteered for the experiment were tied in stretchers, with oval aluminum covers. One was suspended from each wing and one under the fuselage. 2102

Well Qualified For Post

New U.S. Minister To Canada Highly Spoken Of

Norman Armour, the new Minister to Canada from the United States, received complimentary send-offs. The New York Herald Tribune, having spoken highly of his training and temperament, said: "Mr. Armour has the useful—and for a diplomat, the rare—quality of being a 'good mixer.' Incidentally, warm sympathy for the Canadian people and a keen sense of the importance of Canadian-American relations adds to his other qualifications for this post."

The New York Times, having remarked that the appointment of Mr. Armour is a merited promotion and also a recognition of the importance of the Canadian post, went on to say: "His appointment to Canada 'regularizes' the position and gives fresh assurance to Canada that we are sending a representatives of our best in American cultural background as well as in acquaintance with world affairs. It is highly important that we should have especially competent diplomats in posts nearest our own borders, among neighbors with whom we have most in common."

PATTERN PRICES REDUCED

FROM 20c. to 15c.

For years the price has been 20c. for the splendid patterns we have supplied to our readers. We now offer the same service at less cost—which will be good news to all.

Fashion Books also will be reduced from 20c. to 15c.

"SHIRTAUSTY" DRESS ENJOYING POPULARITY—JUST THE THING TO HAVE WITH YOU ON VACATIONS

By Ellen Worth

Another smart "shirtauisty" dress with modish bonnet and sleeves cut in one-piece, which makes it so quickly fashioned.

And the front paneled skirt with its plaits, gives all the fullness desired this season.

Most desirable silks, rayons and cottons are suitable for this simple to sew dress.

Style No. 656 is designed for sizes 14, 16, 18 years, 36, 38, 40 and 42-inches bust. Size 36 requires 3 1/2 yards of 39-inch material. Pattern 15c each. Address mail orders to: Pattern Department, Winnipeg Newspaper Union, 175 McDermot Ave., E. Winnipeg.

SUNDAY SCHOOL LESSON

JUNE 16

CHRISTIAN STEWARDSHIP

Golden text: It is required in stewards that a man be found faithful. 1. Corinthians 4:2. Devotional reading: Psalm 96:1-8.

Explanations And Comments

Fride of Possessions May Lead To Forgetfulness of God, Deuteronomy 31:7-17. The children of Israel are about to enter the Promised Land after their long wilderness wandering, and Moses, their leader, fears that they may there become so prosperous that they will be in danger of forgetting God and of failing to keep his commandments. Against this temptation to pride (lest their heart be "lifted up") because of fine houses, numerous flocks and herds, and abundance of silver and gold, Moses warns them and reminds them of what they owe God, who brought them out of bondage in the land of Egypt, and led them through the great and terrible wilderness. He stops to recall the dangers of that wilderness, the hardships and scorplings, the lack of water, and how fresh water and manna were given them that they might realize their dependence upon God.

It is God who Gives Power to Acquire Wealth, Deuteronomy 8:18. The first and fundamental principle of stewardship lies in God's ownership of all things. The God who created the universe is beginning his priority claim upon all life. There can be no property either without society or without God; neither would there be value to property without society or without the God who guarantees all life' (Stewardship Lesson).

God Loves a Cheerful Giving, II. Corinthians 9:6-8. Generosity in giving will enrich one's own life. Paul wrote the Corinthians. A man who boards the greater part of his supply of wheat, being loth to part with it, would lose a scanty harvest from the smaller amount sown, and the hoarded grain, if kept too long would spoil. The farmer, by sowing that a bountiful harvest is reaped, whether of wheat or of good deeds.

Recipes For This Week

(By Betty Barclay)

ORANGE VITAMIN SALAD

(Serves 4)

4 to 6 small oranges

Lettuce

1/4 cup grated coconut

1/4 cup grated carrots

Pare oranges and cut in thin slices. Cover salad plates, arrange a circle of orange slices, being generous with fruit. Sprinkle with grated coconut and grated carrot. Serve at once with mayonnaise, into which 1/4 as much orange juice has been thoroughly blended.

ALMOND WAFERS

1/4 cup butter

Flour

1/4 cup confectioners' sugar

Few grains of salt

1/4 cup sweet milk

Scant cup bread flour

Grated sweet almonds.

Cream the butter and add the sugar slowly, then the salt. Add the milk as slowly as possible, not more than a drop at a time. Then add the flour and the flavoring. Spread in a very thin sheet on the bottom of an inverted roasting pan. Sprinkle over with the ground almonds. Mark in three-inch squares and bake in a very slow oven until delicately browned. Cut the squares apart with a sharp knife and roll them up while warm. They may be filled with whipped cream for serving.

Reciprocal Judgments

Fine Provinces Take Advantage Of Dominion Legislation

Judgments of Alberta courts became enforceable in Ontario as the Ontario cabinet passed an order-in-council taking advantage of the reciprocal judgments enforcement act. The Alberta took similar action to make Ontario judgments enforceable there, a short time ago.

Five provinces have taken advantage of the Dominion legislation which applies to both supreme court and county court decisions. They were Alberta, Saskatchewan, Manitoba, Alberta, New Brunswick and Ontario.

An ounce of loyalty is worth a pound of cleverness.

Little Journeys In Science

CHLORINE

(By Gordon H. Guest, M.A.)

Chlorine is a greenish yellow gas which possesses a very disagreeable odor. When breathed it has a very irritating action upon the mucous membranes of the nose and throat, producing coughing, inflammation, and even death. Hence it is quite rightly called a poisonous gas. Chlorine may be easily condensed to a golden yellow liquid, and as such is stored in strong leadlined cylinders holding from about forty to sixty pounds. It was the first poison gas used in the World War. The first attack was made by the Germans on April 22, 1915. They concealed tanks of liquid chlorine in the front line trenches and the substance was used in the form of gas clouds. As chlorine is about two and a half times as heavy as air, the clouds were carried over the ground by the wind. When these clouds entered the trenches, the men in the front line, the struggle for breath became acute, and a man would probably be put out of action in about five minutes.

Chlorine, in the presence of water, is a powerful bleaching and disinfectant agent. It is used in commerce for bleaching cotton, linen, wood pulp, and flour, but cannot be used for wool or silk. Chlorine is also used in the preparation of many compounds which are needed in the explosive and dye industries.

Liquid chlorine is used in water purification and since its introduction for chlorinating water supplies, typhoid fever has been reduced to a minimum in many of the great cities of the world. Recently liquid chlorine has been used in recovering gold from its ores, and also in recovering tin from old tin cans and scrap tin plate.

One of the most important compounds of chlorine is hydrochloric acid gas. A water solution of this gas is called hydrochloric acid or muriatic acid. This acid is an important component of the gastric juice of man and of animals. The gastric juice of man contains from 0.2 to 0.4 per cent, while that of dogs contains about 0.6 per cent. The acid plays an important part in digestion.

Dominion Drama Festival

A Royal Charter Has Been Issued To Assure Perpetuation

To assure perpetuation of the Dominion Drama Festival after the departure of the Earl of Beasborough, a royal charter has been issued, it was announced by Hon. C. H. Cahan, secretary of state. The corporation will be under the name of "The Governors of the Dominion Drama Festival."

In a statement Mr. Cahan said the charter was being issued as a memorial to His Majesty's Silver Jubilee. The charter recited the stimulation of interest in and the encouragement of the dramatic art in Canada the festival had provided.

The charter gave the new body power to hold real and personal estate and to receive grants. It cannot hold more than \$25,000 in real estate. Provision was made, the statement explained, for appointment of general and district officers, granting prizes and awards on such conditions as might be prescribed.

Children's Orchestra

Kansas Organization Of 95 Tots

May Take Trip To Japan

Thomas Bruce knows what to do with children who insist upon making loud noises—put them in a symphony orchestra.

His organization, the Kansas City tot symphony, with 95 children ranging in age from four to nine, has proved so popular plans are being made to take it to Japan in 1936, Bruce said.

The children, some of whom started training for the orchestra when only two years old, play such difficult pieces as Bachmann's "Prelude." They also take turns at directing.

Boss (to office boy, who is half an hour late)—You should have been here at 8 o'clock.

Office Boy—Why, what happened?

LEGAL RIGHT OF PROVINCES TO TAX INCOMES

Ottawa.—A province has a legal right to collect income tax, Finance Minister E. N. Rhodes told the House of Commons when T. L. Church (Cons., Toronto East) expressed alarm at the prospect of Ontario duplicating the federal import and abolishing municipal income taxes.

The finance minister expressed hope that before long a settlement would be reached on the over-lapping of provincial and federal taxation fields. It had been on the agenda of the Dominion-provincial conference scheduled for last fall but not held. The house gave third reading to two bills implementing sections of the last budget. All changes in the tariff and income tax were enacted into legislation without prolonged debate. From the day the budget was presented until approved the actual debate in the house has been less than in any recent year.

The Toronto member suggested Canada follow the lead of the United States and publish income figures. A Washington investigation, he said, disclosed shocking conditions of millions of people escaping taxation and he believed a similar situation might be found in Canada.

Mr. Rhodes did not reply. Hon. W. D. Buler (Lib., Waterloo North) objected to continued duplication and multiplication on the part of holders of competing taxes. He protested the present system was "an absolute injustice," even though it was practiced by the former Liberal government.

Drouth At The Coast

Crops On South Vancouver Island Suffer From Lack Of Moisture

Victoria.—Scorched by the sun and dried by the wind, southern Vancouver Island is experiencing one of the worst drouths in recent years. Crops in many areas are parched and withered from the three-month thirst. In many cases they have been reduced 50 to 75 per cent, while in others they are pronounced complete failures.

Much uncultivated land is bone dry to a depth of one to three feet while in some places the drouth has reached the hard pan. A three-inch coating of dust protects the moisture on well-cultivated berry plantations and orchards, but long before the heat will dry it out is a matter of conjecture.

Some plowed fields are dreary stretches of dusty gray-brown. In some of them, seed which was sown a month ago has not yet germinated.

New Title Gazetted

John Buchan Is Now Baron Tweedsmuir Of Elsfield

London.—The barony conferred upon John Buchan, governor-general designate of Canada, was officially gazetted as "Baron Tweedsmuir of Elsfield."

The title Tweedsmuir recognizes the distinguished author's youthful associations with the village of that name on the Tweed. Elsfield Manor in the county of Oxford is his home.

Minimum Wage Act

Ottawa.—With an added provision respecting wages due an employee, the senate banking and commerce committee approved the re-drafted minimum wage bill. The clause inserted provides that in any prosecution of an employer for breach of the act, the court may order payment to the employee concerned of the amount of wages proved to be unpaid or short paid.

Tariff Changes

Ottawa.—Since Aug. 1, 1930, there have been 471 increases in the tariff schedule by act of parliament and four by order-in-council with 366 decreases by parliament and seven by order-in-council, according to a return tabled in the House of Commons. The information was requested by J. F. Poultier (Liberal, Temiscouata).

C.M.A. For Fair Wages

Evidence Of Manufacturers Not Treating Employees Fairly

Hamilton, Ont.—Question of whether or not the Canadian Manufacturers' Association should frown on "improper wages" featured the association's 64th annual convention here.

Discussion followed the report of the executive committee. A. J. Roden, Toronto, introduced the subject in the section of the industrial relations' committee report which recommended the association should still adhere to its traditional policy of insulating wages, hours and conditions of employment generally should be agreed upon between employers and employees.

This was urged in connection with the Ontario Industrial Standards Act, which had been opposed by the association.

"In theory the tradition is right, but it does not always work out in practice," Mr. Roden said. "Some firms abuse this method of engaging employees and pay a very low scale of wages. Perhaps the time has come when decent firms should be protected against ones which buy labor at a cheap price."

E. C. Burton, Toronto, supported Roden, declaring there was too much evidence of manufacturers not treating employees fairly.

"It is time something was done in this regard," he said, in urging passage of a resolution which would state members were not in favor of countenancing unfair wages.

Melville White, Toronto, thought the word "agreement" covered the matter, but Mr. Burton pointed out an employer could agree to pay low wages.

"What I referred to was the 'take it or leave it' type of employment," Mr. Roden remarked.

After Alexander Donald, Hamilton; Elmer Davis, Kingston; W. C. Coulter, Toronto, and others had spoken, the convention passed a motion instructing the resolutions committee to frame a motion on the point.

Many Applications Received

No Shortage Of Recruits For Royal Air Force

London.—The air ministry announced approximately 38,000 inquiries had been received up to June 1 for trainees and mechanics for the Royal Air Force. More than 8,500 inquiries had been received for pilots, officers and airmen. None of these so far had been accepted or interviewed.

The ministry said it was too early yet to give details regarding the origin of the recruits. The inquiries came after the announcement of a rapid expansion in the air force.

U.S. Air Bases

Washington.—Without a whisper of opposition, the house of representatives penned swift approval on a bill to give the army blanket authority to dot the United States with strategic air bases to provide peace-time training for the air force and war-time defense against invasion. The measure now goes to the senate.

Japs Hold Discussion

Paris.—Nine Japanese ambassadors and ministers in European capitals met here in a secret conference, reportedly to discuss to what extent Japan would participate in European affairs. Japanese sources refused even to admit it was a "conference," preferring quite simply to call it "a discussion."

Earthquake Toll In India

London.—Salvage operations in the earthquake-stricken city of Quetta, India, have been indefinitely suspended, the India office announced, because of the "appalling stench." Official estimates placed the deaths in the Quetta area at 56,000, with 26,000 dead in Quetta itself. Population of the city was more than 60,000.

May Issue Stock Permits

Ottawa.—Permits will be issued for the importation of cattle, sheep and other ruminants and swine into Canada from Scotland, on and after June 20, providing no outbreak of disease occurs there among such animals in the meantime, it was announced by the department of agriculture.

SEES THE KING

Here we see Mr. Stanley Baldwin returning to Downing Street through the garden gate after his audience with the King. Mr. Baldwin is expected to take over the duties of premiership shortly as Premier MacDonald is to retire because of ill-health.

Penalties Are Reduced

Senate Adopts Amendment To Weights And Measure Bill

Ottawa.—Minimum penalties for false or unjust weights under the weights and measure bill increasing the punishment for short weights were reduced by an amendment adopted by the senate banking and commerce committee.

Maximum penalties provided in the amending measure were passed without change.

For a first offence, an individual engaged in trade would be liable under the amendment to a minimum fine of \$10 and a maximum of \$50 for a subsequent offence. The bill as received from the commons had provided for a minimum fine of \$50 for a first offence and \$100 for a subsequent infraction. The maxima stand at \$100 for a first offence and \$250 for a subsequent infraction.

In the case of a corporation, the minimum for a first offence was reduced from \$500 to \$100 and for a subsequent infraction from \$1,000 to \$500. The maxima set out in the measure of \$500 for a first offence and \$5,000 for a subsequent infraction remain.

THE FIRST OF THE JUBILEE DRIVES

Here is a happy picture of Their Majesties the King and Queen greeting Dame Helen Gwynne Vaughan and the Earl Jellicoe when they passed Hyde Park on the first of the four state drives around London as part of the Silver Jubilee celebrations. Seventy thousand children lined the route through Marble Arch and gave the King and Queen a tumultuous welcome.

May Be Tax Free

Proposal To Exempt Members And Senators From Income Tax

Ottawa.—Finance Minister E. N. Rhodes may introduce a bill later this session to exempt the indemnities of members and senators from income tax. To absolve members from the charge of legislating for themselves, the bill will not apply to the present parliament.

When the house was discussing income tax changes, Hon. J. L. Ralston, Liberal financial critic, suggested members should be allowed exemptions for living expenses in Ottawa. He claimed it was unjust to tax members for the full indemnity when it was necessary for them to spend most of it to earn it.

The finance minister agreed but went further. He believed the \$4,000 indemnity should be exempt from income tax and was prepared to recommend a change in the law to the incoming parliament.

Will Try For New Record

Sir Malcolm Campbell To Make Attempt To Better Automobile Record In July

London.—Sir Malcolm Campbell, British sportsman, will attempt to better his own world's automobile speed record at Salt Lake City in July, he announced.

Speaking before an advertising club luncheon gathering, Campbell said he would leave for Utah in July for a new record attempt that month. He lifted the record to 276.816 miles per hour at Daytona Beach March 7.

"It is impossible to rely in the future on the beach if you wish to do anything in the region of 300 miles an hour," the sportsman said. "You must have 100 per cent. perfect conditions for high speed. We are now carrying out further tests for our attempt in July."

Frowns On Divorce

Church Of England Rejects Move To Change Ruling

London.—A move to permit divorce and re-marriage in the Church of England, and to urge civil authorities to make divorce laws more liberal, went down to defeat 91-38 before the Church of England synod.

The proposal was introduced by a minority group of bishops, led by Rt. Rev. Ernest William Barnes, bishop of Birmingham. Its sponsors urged since divorce was permitted by the civil laws, the church no longer had any need to frown upon it in all cases.

SEEK APPROVAL OF NEW MIDGET N.R.A. PROPOSAL

Washington.—With President Roosevelt's midget N.R.A. proposal leading toward quick congressional approval, Senator Robinson of Arkansas, Democratic leader, predicted no further legislation on the subject at this session.

His statement, conditioned by an assertion unforeseen conditions might make a further move necessary, capped a day in which the United States capital sought to gauge conflicting indications of the administration's intention.

"If N.R.A. is extended with the exception of those features and provisions held invalid by the court," Robinson told reporters, "I do not now expect further legislation on the subject during the present session."

Meanwhile Donald R. Richberg, N.R.A. chief, left a discussion with President Roosevelt saying he did not expect to head the temporary N.R.A. contemplated by the president.

A generally prevailing opinion was that the president was keeping in mind his expressed intention of obtaining for the federal government clear constitutional authority for dealing with national social and economic problems, a question he said must be decided by "the United States as a whole."

Meanwhile, before the senate foreign relations committee, the administration program for reciprocal tariff treaties was challenged as an unconstitutional delegation of legislative power by Senator Arthur Vandenberg, Michigan Republican, who maintained his point was proved by the N.R.A. decision.

Breach Of Contract

Earl Of Egmout, Sued By Calgary Nurse, Settles Bill

Calgary.—Alberta's millionaire rancher, the Earl of Egmout, sued for \$86 by Miss Mary E. Egmout, a Calgary nurse, has settled for an "unspecified sum," it was announced in the district court.

Judge W. A. Macdonald, who ruled there had been a breach of contract, was advised of the settlement.

Miss Egmout claimed she was entitled to \$86 from the 21-year-old earl, representing a "waiting fee" prior to the birth of Viscount Perceval last year. She was dismissed before the heir to the Egmout fortune was born.

Wheat In Storage

Canadian Wheat In Storage At End Of May Shows Decrease

Ottawa.—Canadian wheat in store for the week ended May 31 amounted to 202,120,349 bushels, a decrease of 2,067,128 bushels compared with the previous week, the Dominion bureau of statistics reported. On the corresponding date last year the visible supply was 200,336,042 bushels.

Canadian wheat in the United States amounted to 9,370,703 bushels, a net decrease of 824,322 bushels against the previous week, and an increase of 4,118,502 bushels compared with the same period last year.

Social Credit Campaign

Calgary.—William Aberhart, Alberta Social Credit League leader, said in an address here that a group of Manitoba men had informed him they were raising funds to enable him and other Social Credit speakers to fly to Manitoba as soon as Alberta schools close. Mr. Aberhart is principal of Crescent Heights high school in Calgary.

Eight-Hour Day Bill

Ottawa.—The eight-hour day bill, riddled with amendments by the senate banking and commerce committee, was given third reading in the upper house. It will go back to the commons for concurrence in the changes, chief of which is a reduction in time for bringing employees in the railway running trades under its provisions.

The Higher Yields From Small Plots

Scientific agriculturalists at Governmental Institutions have often noted the superior yields that come from small plots managed by hand, as compared with the lesser yields obtained from large fields seeded and cultivated with machinery. Investigations that have been made, particularly at the Dominion Experimental Farm, Swift Current, have revealed that the difference in yields are mainly due to the fact that on small plots the weeds are usually all removed by hand, whereas on large fields the implements permit a certain percentage of the weeds to thrive.

It is evident, therefore, that much valuable moisture will be saved if weeds are well kept down on summerfallow.

SPORTING NOTES OF LOCAL INTEREST

Hip, Hip! We got our Sports Day. With an all star cast to start the proceedings, it looks as the last year's record would be put in the shade!

In the sporting circles here the week was fairly well spent. Stony's basketballers went to town to defeat Centrals 22-3. This was a one sided affair, and Locals hope to keep up the good work for the First.

One game of Softball was washed out; The 2d encounter was a free-scoring game with Pelicans casting their spell over Canaries to the tune of 34-22. Canaries were figured to be the team to beat but right now B. Hawks are making the others look up, and are now well in front.

The Loeblich-Broz-Braas-Fuhr outfit came up from the Grove on Friday

A 2nd Game Episode

and played scrappy baseball, but were good enough to win, 14-13. This team has some good sluggers, but their ball playing was poor.

We hate to criticize too much, but when we see a demonstration of pep as the locals displayed against Groves we can't hold in much longer. With bases loaded a player who is considered a good hitter steps up and takes the count of 3, then throws down his bat as if it were the most natural thing to do. The fans will not support the game unless players show some ambition and determination to win. Even if it is only show, it makes a better ball game. The locals will, no doubt, be entered July 1st; but a few good practices would do no harm to infielders and outfielders.

Last Sunday the local ball tossers made it 3 straight wins in the league by taking a double header from Keep Hills by scores of 6-3, 13-6. The first game was a good encounter, with Eddie Enders hurling his 1st win of the season. Few errors were made in this game, and the fans were well satisfied.

The 2d game was a different story. There is an old saying that a no-hit pitcher soon loses his form. Last year Johnny Beldersweden hurled a no-hit game. He was knocked out of the box the 1st inning of the 2d game and was relieved by Grant. This game was not in form either, and finally Ph. Enders finished the game. This was a poor game—there being 2 many raw decisions on the part of the ump, and 2 many errors to make it an interesting game.

Next week we will have definite information of teams and contests to be played July 1st.

History was made in Sunday's ball game when a local player was called out on 3 balls! Pretty bad, eh, what! —B.C.O.

"One Wide River to Cross"
"The Unknown Port," Etc.

CHAPTER IV.—Continued

Thus before they slept that night, the two young people knew that they were to go "out West." The arguments pro and con had waged for a good two hours, Aunt Louise protesting vigorously to the very last that her nephew would return East with the manners "of a bear."

"And I warn you too, young man," she asserted grimly, "that you won't find life on a ranch the romantic dream you're picturing to yourself at present. As for your sister—"

At this point words failed her and she ended with a tragic gesture which caused even Nance to smile a little. There was no doubt whatever that Aunt Louise could perceive no virtue in what she termed "this wild, ridiculous scheme of Jack's"; and even Aunt Judy suggested with some reluctance that if he boy must go, it might be wise for him to go alone.

"All right," he retorted, impatient at what seemed a block, "if life is too much of a hot-house flower to stand transplanting—if she can't put up with a few hardships a time like this, I will go alone, though possibly—"

He hesitated, and his father ended for him: "You're thinking that it's Nance whom Cousin Columbine really wants to come?"

Jack nodded.

"She might not pay my carfare if I went alone, Dad."

"So if you go, it looks as if I'd have to," said the girl bitterly. "I suppose if I get unbearably fed up with everything I can walk back."

"Two thousand miles on the hoof!" grinned her brother, though perfectly aware that she spoke with sarcasm. "That's where your pioneer blood shows up, my dear! If you find our aged relative too impossible you can turn hitch-hiker. See here! I promise solemnly that if you can't stand the job after a month or two,

we'll hitch-hike back together. The experiment won't cost Dad a cent; and the chances are we'll have a whale of a good time."

"Good time!" sputtered his paternal aunt; when Mother interrupted: "But, Louise, can you see any especially good times for the children if they stay at home?"

Every one turned to her in surprise; while Aunt Louise responded: "Surely, Margaret, you don't approve of this idea?"

"Not wholly; but I've a feeling that both Jack and Nancy will be happier in absolutely new surroundings for a time. It's not easy for young folks to adjust themselves to such radical changes as we'll have to make. Of course I shall worry about Nance; but if she's too unhappy I think we can manage to bring her back without the necessity of hitch-hiking! What do you say, Nance?"

It was then that Nancy, glancing at her father as if for help, saw something in his face that made her heart contract. For the first time she realized what this catastrophe had done to Dad. Why, he looked old, she thought with consternation. He looked worried—frantically worried; and all this talk was worrying him still more. Yet here she was hesitating to accept a chance to earn her living just because the thought of doing something hard—going so far away, seemed unendurable. What had Jack called her the other night? A parlor ornament? Well, he was right, wasn't he? That's about all she measured up to. For one swift, illuminating moment the girl saw herself as others saw her, and was honestly appalled. Dad would never admit it, but her absence and Jack's would be a help just now. All this and more went through her mind in a revealing flash before she answered with new-born bravery.

"Of course I'm going! I had to get used to the idea, that's all. It may not be very exciting at Cousin Columbine's, Mother, but it'll be interesting, won't it—seeing new things and places? Let's not talk any more. It's settled as far as I'm concerned. Come on, Jack, we'd better make a list of things to take."

"And don't forget your flannel nightgowns," spoke up the little brother; so, after all, the discussion ended on a smile.

CHAPTER V.

Waking suddenly at a nerve-racking jolt, Nancy sat up, wondering in that first startled instant, where she could be. There her brain cleared and she realized that she was aboard a train headed for Colorado, and wondered if they had run into something, and if she ought to waken Jack or get up and put on her clothes. Surely there had been no such jolt the night before. For a moment she listened tensely in expectation of some confusion; then raised the window shade, peering out into the dim, grey light of early morning.

The train had stopped before a station and her car was directly opposite the brightly lighted restaurant. Nancy could see a girl of about her own age dressed in a crisp, white uniform, serving some trainmen at a lunch counter. She wondered if the waitress had been up all night or was just beginning her day's work. Probably the latter, for she looked fresh enough—but what a ghastly hour to go to work!

A man and woman carrying suitcases emerged from the waiting room, and a moment later Nancy felt them brush by her section, speaking to the porter in hushed voices. A cheerful time to be starting on a journey, she thought ironically, but perhaps out here where the distances were so great, one had to start when one could.

There followed another jolt. Evidently the engine had been detached and was coupling on again. The wheels turned slowly, and then faster. Nance strained her eyes to catch the name of the station—Dodge City—and alighting a little, pulled down the shade and snuggled under the blankets.

So they were still in Kansas. Kansas! The idea that she could be there was incredible to Nancy Nelson. Why, Kansas had always seemed so far away as the North Pole—and fully as unattractive! People

"WOULD NOT BE WITHOUT SASKASAL"

Says Regina Woman
Indigestion Gone, Can Eat Anything

Read this letter: "For several years I had been troubled with indigestion and could eat very few foods which agreed with me. A friend of mine suggested that I try Saskasal, which I did, and it has entirely cured me and now I can eat anything I would not have a bottle of Saskasal in my home, and I hope others may benefit as I have done when they know of your wonderful remedy in Saskasal." Saskasal is Nature's own Mineral Salts. Its alkaline action neutralizes over-acidity in the blood and thus makes it a valuable natural remedy in all cases of Constipation, Rheumatism, Liver and Kidney troubles, Indigestion, Biliousness, etc.

At All Drug Stores—6c

lived there, of course, but not people quite like themselves. At least, that was how the girl had thought about it; yet that waitress in the lunch room looked—why she looked every bit as up-to-date as the girls behind the lunch counters at Thompson's Spa on Washington Street in Boston.

This comparison brought a wave of homesickness to the unwilling exile. What a three weeks it had been since Jack received those telegrams from Cousin Columbine! Such a hectic time. Aunt Judy starting off for Europe with those crazy Spear girls. Hurried trips to Edgemore with Mother. Packing. Deciding what to take and what to leave behind. Getting tickets and reservations. And those last awful moments at the South Station with Phil wanting to know how he made the sections into beds and asking a thousand foolish questions—Mother smiling unaturally to keep from crying—Aunt Louise arriving at almost the last second with a box of candy, and Dad, his face so terribly set and stern.

Just to recall it made Nance shudder. Even Jack had lost his enthusiasm for a time, and hadn't talked much until the train left Toronto. But a meal in the diner had restored his courage, and since then he'd been the jolliest of companions. She hadn't realized before how nice her brother really was. Not once had he compared her to a loudmouth flower or a parlor ornament. Not even when he caught her winking away some tears as the train pulled out.

Nancy slept after a while, but not for long. It was Jack who awakened her, slipping down from the upper berth and snapping up the window shade.

"Wake up, sis!" he commanded in an excited whisper. "Look where we are! Why, that's—that must be prairie!"

It was! Nancy sat up, almost as excited as her brother. Prairie! Miles and miles and miles of it, stretching endlessly into a far horizon. Neither of

them had dimly realized the vastness of those great plains they were to cross—plains white, lay dappled by morning sunlight, softly undulating, as far as their astonished eyes could reach.

For the first time since starting on this journey, Nancy forgot her homesickness and was thrilled. She drew a breath born of both amazement and delight. To one whose entire life had been spent either in a crowded city or surrounded by the sheltering, green hills of New England, such limitless space was almost unbelievable. For a time she switched this unfamiliar world slip by, too awed for anything save exclamations. It all seemed wonderful: a herd of grazing cattle—a clump of cottonwoods beside an irrigating ditch—a schoolhouse set in curious isolation considering its purpose; and in the distance patches of green about some lonely ranch.

Even Jack was silent, too interested, perhaps, to comment; but at last he said: "Let's dare, Nancy. I want to get out and sniff this air at the next station. Breakfast at Syracuse anyhow, and say! I think the sun looks brighter here than it does at home."

This was no idle guess. The sun was brighter—the air more sparkling. Nancy admitted that she had never breathed such air. They cut short their breakfast in order to have more moments to pace the platform. "And in no time now," said Jack as they swung reluctantly aboard the train again, "we'll be in Colorado. I wonder who Cousin Columbine will send to meet us."

Nance smiled.

"Do you remember her first letter?"

"I was to sit quietly in the station until called by her."

"So you were! Do you suppose they'll keep up waiting long? Gee, Nance! I just can't realize that this long trip is nearly over!"

Neither could Nance; but all too soon they found themselves waiting their turn to leave the train. Good-byes to friendly fellow passengers had been spoken. A smiling porter had brushed away the cinders. Nancy, standing behind Jack in the narrow passage, realized suddenly that the hands clutching her pocket-book were trembling. Indeed, all the fear that had gripped her on leaving home was back again as she emerged into the sunlight and joined her brother on the platform.

Jack, smiling a negative to an approaching red cap, rescued their bags from a pile of luggage, and moved toward the station—a beautiful station that back again as she emerged into the sunlight and joined her brother on the platform.

Jack, smiling a negative to an approaching red cap, rescued their bags from a pile of luggage, and moved toward the station—a beautiful station that back again as she emerged into the sunlight and joined her brother on the platform.

"Civilized!" Her brother laughed. "What did you think you'd see? Wild Indians? Of course it's civilized—But for the love of Mike, Nance, look there!"

Nance looked. An Indian squaw was coming toward them, her shoulders covered by a gay, striped shawl, a wee black-eyed popoose strapped to her back. Said Jack, as she disappeared around a corner: "That relic of old times must have been ordered for our special benefit. I

No More Cheap Mustard for Me!

"What's the trouble now, Anne?" "I made up my usual tried and tested Pickle recipe, but a friend of mine told me to use Bulk Mustard, it was cheaper. I did. It spoiled the lot!"

"That's too bad, Anne. You'll stick to Keen's after this! It is the pure mustard, so you always know just how much to use and you need never waste or spoil anything."

KEEN'S D.S.F. MUSTARD

Made from seed grown especially in the West of England. The shells or hulls are removed, all the virus being in the inner part of the seed. A superior seedling makes the full flavor readily available. In original tins or in loose lots.

didn't suppose they carried their kids like this in these days."
(To Be Continued)

Little Help for This Week

"Thou shalt love thy neighbor as thyself." Matthew 19:19.

So others shall Take pleasure, labor to their heart and hand, From thy hand, and thy heart, and thy brave cheer, And God's grace magnify through thee to all. The least flower with brimming cup may stand, And share its dewdrop with another near.

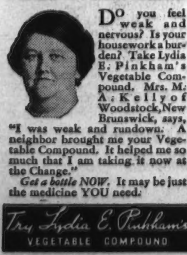

What is meant by our neighbor we cannot doubt, it is everyone with whom we are brought into contact. First of all he is literally our neighbor who is next to us in our own family and household. Then it is he who is close to us in our own neighborhood, our own town, in our own street. With these all charity begins. To love and be kind to these is the beginning of all true religion. But besides these, as our Lord teaches, is the one who is thrown across our path by the changes and chances of life, be he or she whoever it be that we have means of helping, the unfortunate stranger we may meet in travelling, the friend whom no one else cares to look after.

Naturalized Germans Exempt

According to W. C. Boshart of Edmonton, German residents in the Dominion of Canada are exempt from compulsory military service in their homeland. Mr Boshart received this information from Berlin. An official declaration giving an interpretation of Chancellor Hitler's recent speech in the Reichstag, in which he dealt with military service, states that Germans who are naturalized or who have made their permanent homes in foreign countries will not be compelled to return to Germany to serve in the army.

An Old Greyhound Custom

A lady passenger travelling from Macleod to a U.S.A. point, and in a hurry to reach her destination became very much irked at the delay caused by numerous stops at villages and numerous crossroads. Approaching the driver she impatiently inquired "Does this bus have to stop at every telephone pole along the highway?" And the driver very courteously replied: "You must remember, madam, this bus is a Greyhound."—Voice of Motordom.

Date of the Election?

A dispatch from Ottawa states that Law Officers of the Crown assert there is no doubt that a government may remain in power and delay an election after a legislature or parliament dissolves to within 12 months of the date of the last sitting, subject to the period for which Supply has been voted. The consensus of opinion seems to be, the Reid Government would not do this.

Here and There

Two or three times as much rainfall this year between April 1 and May 1 as on the prairies as compared with the same period last year makes the outlook for the 1935 harvest similar to that at the same time of year in 1932 when the largest crop since 1928 was recorded, states T. S. Achison, general agricultural agent of the Canadian Pacific Railway in the West.

Leonard J. Fehlmann, traveling passenger agent, Canadian Pacific Railway, with headquarters at New York, was recently elected vice-president of the American Association of Traveling Passenger Agents of New York. Mr. Fehlmann has been a member of the association's executive committee for the past year.

Hotel Saskatchewan, Regina, distinguished itself recently by staging a Chinese Mandarin dinner dance, said to be the first of its kind on this continent. As stage decoration there was used a hundred-foot runner and side drapes, hand-made by Chinese many decades ago, and insured while in use at a valuation of \$6,000. The orchestra was in Chinese dress and provided music with a decidedly Eastern background.

T. J. Jackson, who has just been appointed first assistant manager of the Royal York Hotel, Toronto, in succession to Cyril Chapman, promoted to the post of manager of the Selwyn Club of Quebec, started as cashier at the Chateau Frontenac in 1924 and has had rapid advancement to his present high position.

To Charles Montgomery, one-time switch-tender and at present elevator operator at the Canadian Pacific uptown office building in Winnipeg, go all honors for having constructed what is probably the most perfectly finished model of a locomotive on the continent. It is a five-foot replica of a Canadian Pacific class "2300", finished in brass, and copper, and took five years to construct.

Out of active service for some years past, Canadian Pacific liner Melita has been sold to Italian shipbreakers. She was built in Glasgow in 1918.

"Never betray a trust; be honest; do what other men can do; and work your eight hours a day," is the recipe for success enunciated by Caleb R. Smith, international chairman of the Million-Dollar Round Table, speaking to the Life Underwriters in convention at the Royal York Hotel, Toronto, recently.

James G. Millar, Medicine Hat, veteran Canadian Pacific engineer, recently celebrated his 82nd birthday, when railway acquaintances and relatives gathered to congratulate him. He was born in Drummondville, Que., and has been drawing a railroad cheque for more than 64 years.

A couple of score of fine old railroaders who five decades ago helped push the steel around the north shore of Lake Superior for the Canadian Pacific Railway, gathered near Lake Superior, recently, to re-enact the driving of the last spike at Niole on May 16, 1888. "Alex. Anderson, Port Arthur, who held the spike when it was driven fifty years ago, drove home a new glided spike with a vigor that belied his 81 years.

Notice to Creditors and Claimants.

IN THE MATTER OF THE ESTATE OF JOHN NICHOLAS FRANK, DECEASED.

NOTICE IS HEREBY GIVEN that all persons having claims upon the estate of the above named John Nicholas Frank, who died on or about the 11th day of March 1935, are required to file with the Western Trust Company, 507 Tegner Building, Edmonton, Alberta, Administrator, by the 16th day of June, A. D. 1935, a full statement, duly verified, of their claims and of any securities held by them; and that after that date the Administrator will distribute the assets of the deceased among the parties entitled thereto, having regard only to the claims of which notice has been so filed or which have been brought to their knowledge.

DATED this 16th day of May, A. D. 1935.

HOWSON, DUNCAN, McLEACH, IAN & CROSS, Solicitors for the Administrator, Bank of Nova Scotia Building, EDMONTON, Alberta.

**Grading of
GARNET WHEAT**

In accordance with an amendment to the Canada Grain Act passed at the 1934 session of the Parliament of Canada, separate grades will be established for Garnet Wheat, effective August 1, 1935.

All farmers should have this in mind in preserving and procuring seed for the sowing of their 1935 wheat crop.

FEDERAL GRAIN LIMITED
